The venerable Mark Hopkins, ex-presi. dent of Williams College, in company with his friend, Mr. Van Vechten, of New York, visited Howard University yesterday. He expressed great gratification at the indications of prosperity which he saw on every hand, and at the roll of 446 students in the new catalogue. It curiously happened that, when he reached one of the recitation rooms, President Patton was hearing a class in Dr. Hopkins's own work on "Thee Evidences of Chris'slamity." At the invitation of President Patton, Dr. Hopkins made a brief address to the class, stating that his experience and studies since he wrote that book had confirmed him in the views therein expressed, but that they must investigate in a candid and independent spirit. Mr. Van Vechten added a few words as to the happy influence which Dr. Hopkins had exerted over him during his college life by emphasis laid upon character in distinction from reputation. visited Howard University yesterday.
